

Anti-Money Laundering Policy

1. Preamble:

The Government of India has serious concerns over money laundering activities which are not only illegal but anti-national as well. The Prevention of Money Laundering Act, 2002 (PMLA) was enacted in 2003 and brought in to force with effect from 1st July 2005 to prevent money laundering and to provide for attachment, seizure and confiscation of property obtained or derived, directly or indirectly, from or involved in money laundering and for matters connected therewith or incidental thereto. Necessary Notifications/Rules under the said Act were published in the Gazette of India on July 01, 2005. As a market participant, it is evident that strict and vigilant tracking of all transactions of suspicious nature required.

Pursuant to the recommendations made by the Financial Action Task Force on anti-money laundering standards, SEBI has issued a master circular No.CIR/ISD/AML/3/2010 dated December 31, 2010 on Anti Money laundering/ combating the Financing of Terrorism (CFT) in line with the FATF recommendations and PMLA Act, 2002. As per the Guidelines on Anti Money Laundering standards notified by SEBI, All registered intermediaries have been advised to ensure that proper policy frameworks are put in place. The objective is to ensure that we identify and discourage any money laundering or terrorist financing activities and that the measures taken by us are adequate enough to follow the spirit of the Act and guidelines

As per the provisions of the PMLA, Intermediary includes a stockbroker, sub-broker, share transfer Agent, banker to an issue, trustee to a trust deed, registrar to an issue, asset management company, depository participant, merchant banker, underwriter, portfolio manager, investment adviser and any other intermediary associated with the Securities market and registered under section 12 of the Securities and Exchange Board of India Act, 1992 (SEBI Act) shall have to adhere to client account opening procedures and maintain records of such transactions as prescribed by the PMLA and Rules notified thereunder.

SEBI has issued necessary directives through circulars from time to time, covering issues related to know your Client (KYC) norms, Anti-Money Laundering (AML), Client Due Diligence (CDD) and combating Financing of Terrorism (CFT). The directives lay down the minimum

requirements and it is emphasized that the intermediaries may, according to their requirements, specify additional disclosures to be made by clients to address concerns of money laundering and suspicious transactions undertaken by clients.

Accordingly the Company has laid down policy guidelines which have been reviewed from time to time in the light of SEBI Master circular No. CIR/ISD/AML/2010 dated December 31, 2010 and other SEBI Circulars on Anti Money Laundering (AML) standards / combating the financing of Terrorism (CFT) obligation of intermediaries under prevention of money laundering act 2002 (PMLA) and Rules framed thereunder, after making necessary amendments in the existing Anti money laundering policy of the company. In pursuance of above said circular and the provision of the prevention of money laundering act, 2002 (PMLA) the policy of the company is to prohibit and actively prevent money laundering and any activity that facilitates money laundering or terrorist financing. Money laundering is generally understood as engaging in acts designed to conceal or disguise the true origins of criminally derived proceeds or assets so that they appear to have derived from legitimate origins or constitute legitimate assets.

2. Definition of money laundering

2.1 Section 3 of the Prevention of Money Laundering (PML) Act, 2002 has defined the "Offence of money laundering" as under:

"Whoever directly or indirectly attempts to indulge or knowingly assists or knowingly is a party or is actually involved in any process or activity connected with the proceeds of crime and projecting it as untainted property shall be guilty of offence of money laundering"

2.2 For the purpose of this document, the term 'money laundering' would also cover financial transactions where the end use of funds goes for terrorist financing irrespective of the source of the funds.

2.3 Money Laundering Cycle: The process of Money Laundering regardless of its degree of complexity is accomplished in three stages, namely, (a) the placement stage, (b) Layering stage and (c) Integration Stage.

a) **Placement:** Physical disposal of criminal proceeds (large amount of cash) and initial introduction of illicit funds into a financial services institution.

b) **Layering:** Movement of Funds (e.g. through multiple transactions) from institution to institution to hide the source and ownership of funds and to separate the criminal

proceeds from their source by the creation of layers of transactions designed to disguise the audit trail and provide the appearance of legitimacy.

c) **Integration:** The placing of laundered proceeds back into the economy in such a way that they re-enter the market appearing as normal and legitimate funds.

Annexure- II

Customer Identification Requirements – Indicative Guidelines

Particulars	Guidelines
Trust/Nominee or Fiduciary Accounts	There exists the possibility that trust/nominee or fiduciary accounts can be used to circumvent the customer identification procedures. The Compliance team should determine whether the customer is acting on behalf of another person as trustee/nominee or any other intermediary. If so, Compliance team shall insist on receipt of satisfactory evidence of the identity of the intermediaries and of the persons on whose behalf they are acting, as also obtain details of the nature of the trust or other arrangements in place. While opening an account for a trust, dealers should take reasonable precautions to verify the identity of the trustees and the settlers of trust (including any person settling assets into the trust), grantors, protectors, beneficiaries and signatories. Beneficiaries should be identified when they are defined. In the case of a 'foundation', steps should be taken to verify the founder managers/ directors and the beneficiaries, if defined.
Accounts of companies and firms	Compliance team need to be vigilant against business entities being used by individuals as a 'front' for maintaining accounts with brokers. They should examine the control structure of the entity, determine the source of funds and identify the natural persons who have a controlling interest and who comprise the management. These requirements may be moderated according to the risk perception. e.g. in the case of a public company it will not be necessary to

<p>Client accounts Opened by professional intermediaries</p>	<p>When the dealer has knowledge or reason to believe that the client account opened by a professional intermediary is on behalf of a single client, that client must be identified. Dealers may hold 'pooled' accounts managed by professional intermediaries on behalf of Entities like mutual funds, pension funds or other types of funds. Dealers should also maintain 'pooled' accounts managed by lawyers/chartered accountants or stockbrokers for funds held 'on deposit' or 'in escrow' for a range of clients. Where funds held by the Intermediaries are not co-mingled at the Branch and there are 'sub-accounts', each of them attributable to a beneficial owner, all the beneficial owners must be identified. Where such accounts are co-mingled at the branch, the branch should still look through to the beneficial owners. Where the broker rely on the 'customer due diligence' (CDD) done by an intermediary, it shall satisfy itself that the intermediary is regulated and supervised and has adequate systems in place to comply with the KYC requirements.</p>
<p>Accounts of Politically Exposed Persons (PEPs) resident outside India</p>	<p>Politically exposed persons are individuals who are or have been Entrusted with prominent public functions in a foreign country, e.g., Heads of States or of Governments, senior politicians, senior government/judicial/military officers, senior executives of state-owned corporations, important political party officials, etc. Compliance team should gather sufficient information on any person/customer of this category intending to establish a</p>

	relationship and check all the information available on the person in the public domain. Compliance team should verify the identity of the person and seek information about the sources of funds before accepting the PEP as a customer. The Compliance team should seek prior approval of their concerned Heads for opening an account in the name of PEP.
Accounts of non-face-to-face customers	With the introduction of telephone and electronic brokering, increasingly accounts are being opened by brokers for customers without the need for the customer to visit the broker branch. In the case of non-face-to-face customers, apart from applying the usual customer identification procedures, there must be specific and adequate procedures to mitigate the higher risk involved. Certification of all the documents presented shall be insisted upon and, if necessary, additional documents may be called for.

Communication:

Each version of modified policy must be communicated to all staff and all associates person i.e. branch, Authorized Persons, Sub Brokers. This communication is mandatory in addition to the training session to be given to the staff and associates person from time to time.
